We are learning

Seasons:  Spring,  Summer,  Fall (Autumn)
 Winter

Science: Our feelings: Worried, frustrated

Social Studies: This month, our preschoolers will learn about community helpers, including healthcare workers, emergency responders, school staff, service workers, and government helpers. Through fun activities and stories, children will discover how these everyday heroes keep our communities safe, healthy, and happy!

To work at home

This month, our preschoolers will explore the importance of caring for others and lending a helping hand. Through stories, group activities, and everyday classroom experiences, children will learn about kindness, empathy, sharing, and teamwork. We will encourage our little learners to recognize the feelings of others, offer help when needed, and understand how small acts of kindness can make a big difference. Our goal is to nurture compassionate hearts, build positive friendships, and teach children the joy of helping others!

This month, our students will explore the exciting world of shapes. Children will learn to recognize and identify different shapes, compare their sizes, and discover how shapes are found all around us. Through hands-on activities, games, art, and exploration, students will identify shapes in their environment, nature, and printed materials. These fun learning experiences will help strengthen their observation, problem-solving, and early math skills while encouraging curiosity and creativity.

Important Dates

Closed 11/11/26, 11/27-11/28

Letters & Words

1. Letter Ff 1. For
2. Letter: Kk 2. Is
3. Letter: Vv 3. Do
4. Letter: Dd 4. Play

Math

1. Number 12
2. Number 13
3. Number 14
4. Number 15

Shapes

1. Review

Birthdays

1. Nov. 05 Elon
2. Nov. 07 Kaydence
3. Nov. 15 Xavier
4. Nov. 30 Ethan
