

# Meet the Teacher

Mrs. Wendy

## About Me

Hello, my name is Wendy I am happily a mother of two children and one girl, I am a professional person very responsible, kind, educated, grateful that since I was little I liked to teach. I have experience in education for more than 10 years but currently, for about 5 months I have had the pleasure of teaching children from 1 to 2 years of age, belonging to the great family of The kidz house. My goal is that children always acquire new knowledge and that they learn to have fun, especially when they are happy. I always try to meet the requirements of preparation and updating that this beautiful race demands.

## Education

I went to a University in my country and completed my degree in computation. I then attended another University and got my Masters in Education. I also completed my Doctorate in Technology and now study English at Santa Fe.
